What's New In?

Burn MP3 CD from MP3 files MP3 CD Recorder is a piece of software designed for the purpose of writing MP3 files as MP3 CD for being played by MP3 CD Players. MP3

format is the most popular music format today because of its excellent features, good audio quality, high compression rate, full of MP3 software support, and cheap hardware MP3 CD Players. Comparing with WAV format, compress music as MP3 format can save you 10 times of disc space without lose too much audio quality. In general, an audio CD may save 10 to 20 songs, or 80 minutes of audio. Comparing with Audio CD, an MP3 CD can save around 200 MP3 songs of 128 kbits, or more than 10 hours of music, and it can even save more

if you decrease the MP3's bitrates that will also lose the audio quality. MP3 CD Recorder will allow you to burn hundreds of MP3 songs to a single CD. The CD may be played by MP3 discman or MP3 CD players. Requirements: ? Intel Pentium Class CPU ? At least 64 MB RAM ? At least 1 GB free space ? CD Burner. Limitations: ? You can burn maximum 30 MP3 files. MP3 CD Recorder is a piece of software designed for the purpose of writing MP3 files as MP3 CD for being played by MP3 CD Players. MP3 format is the most popular
